

**SATURN MINERALS & SWIFT RESOURCES
COMMENCE DRILLING IN SASKATCHEWAN**

Vancouver, December 7, 2009 – Saturn Minerals Inc. – SMI: TSX.V (“Saturn”) & Swift Resources Inc. – SWR: TSX.V (“Swift”) (the “Companies”), have commenced drilling on the Erwood & Armit blocks of the Saskatoba project located near Hudson Bay, Saskatchewan. The drill program is designed to test geophysical anomalies similar in nature to 'Goldsourc style' coal deposits as identified in the recently completed NI 43-101 report (see *News Release, dated Nov 27*). Targets will be drill tested in sequence as dictated by current weather conditions in the Hudson Bay area.

For more info, see the map at the following link: <http://saturnminerals.com/images/geophystargets.jpg>

The drill program is being conducted under the supervision of North Rim Exploration Ltd. of Saskatoon, Saskatchewan in conjunction with Dr. Krzysztof Mastalerz, the Companies' qualified person under 43-101 standards who has reviewed and approved the technical content of this release. Kluane Drilling Ltd. of Whitehorse, Yukon, is providing all drilling services for the project.
